Revised content layout as modelled below (typical) after learning grid layout in CSS

class = "grid container"

<section>
class = grid_header_section01

THRILL RIDES

<article>
class = grid_section01_article01
<h2> ride name
<img>
<p> Ride description
 list of ride requirements

<article>
class = grid_section01_article02

<article>
class = grid_section01_article03

<section>
class = grid_header_section02

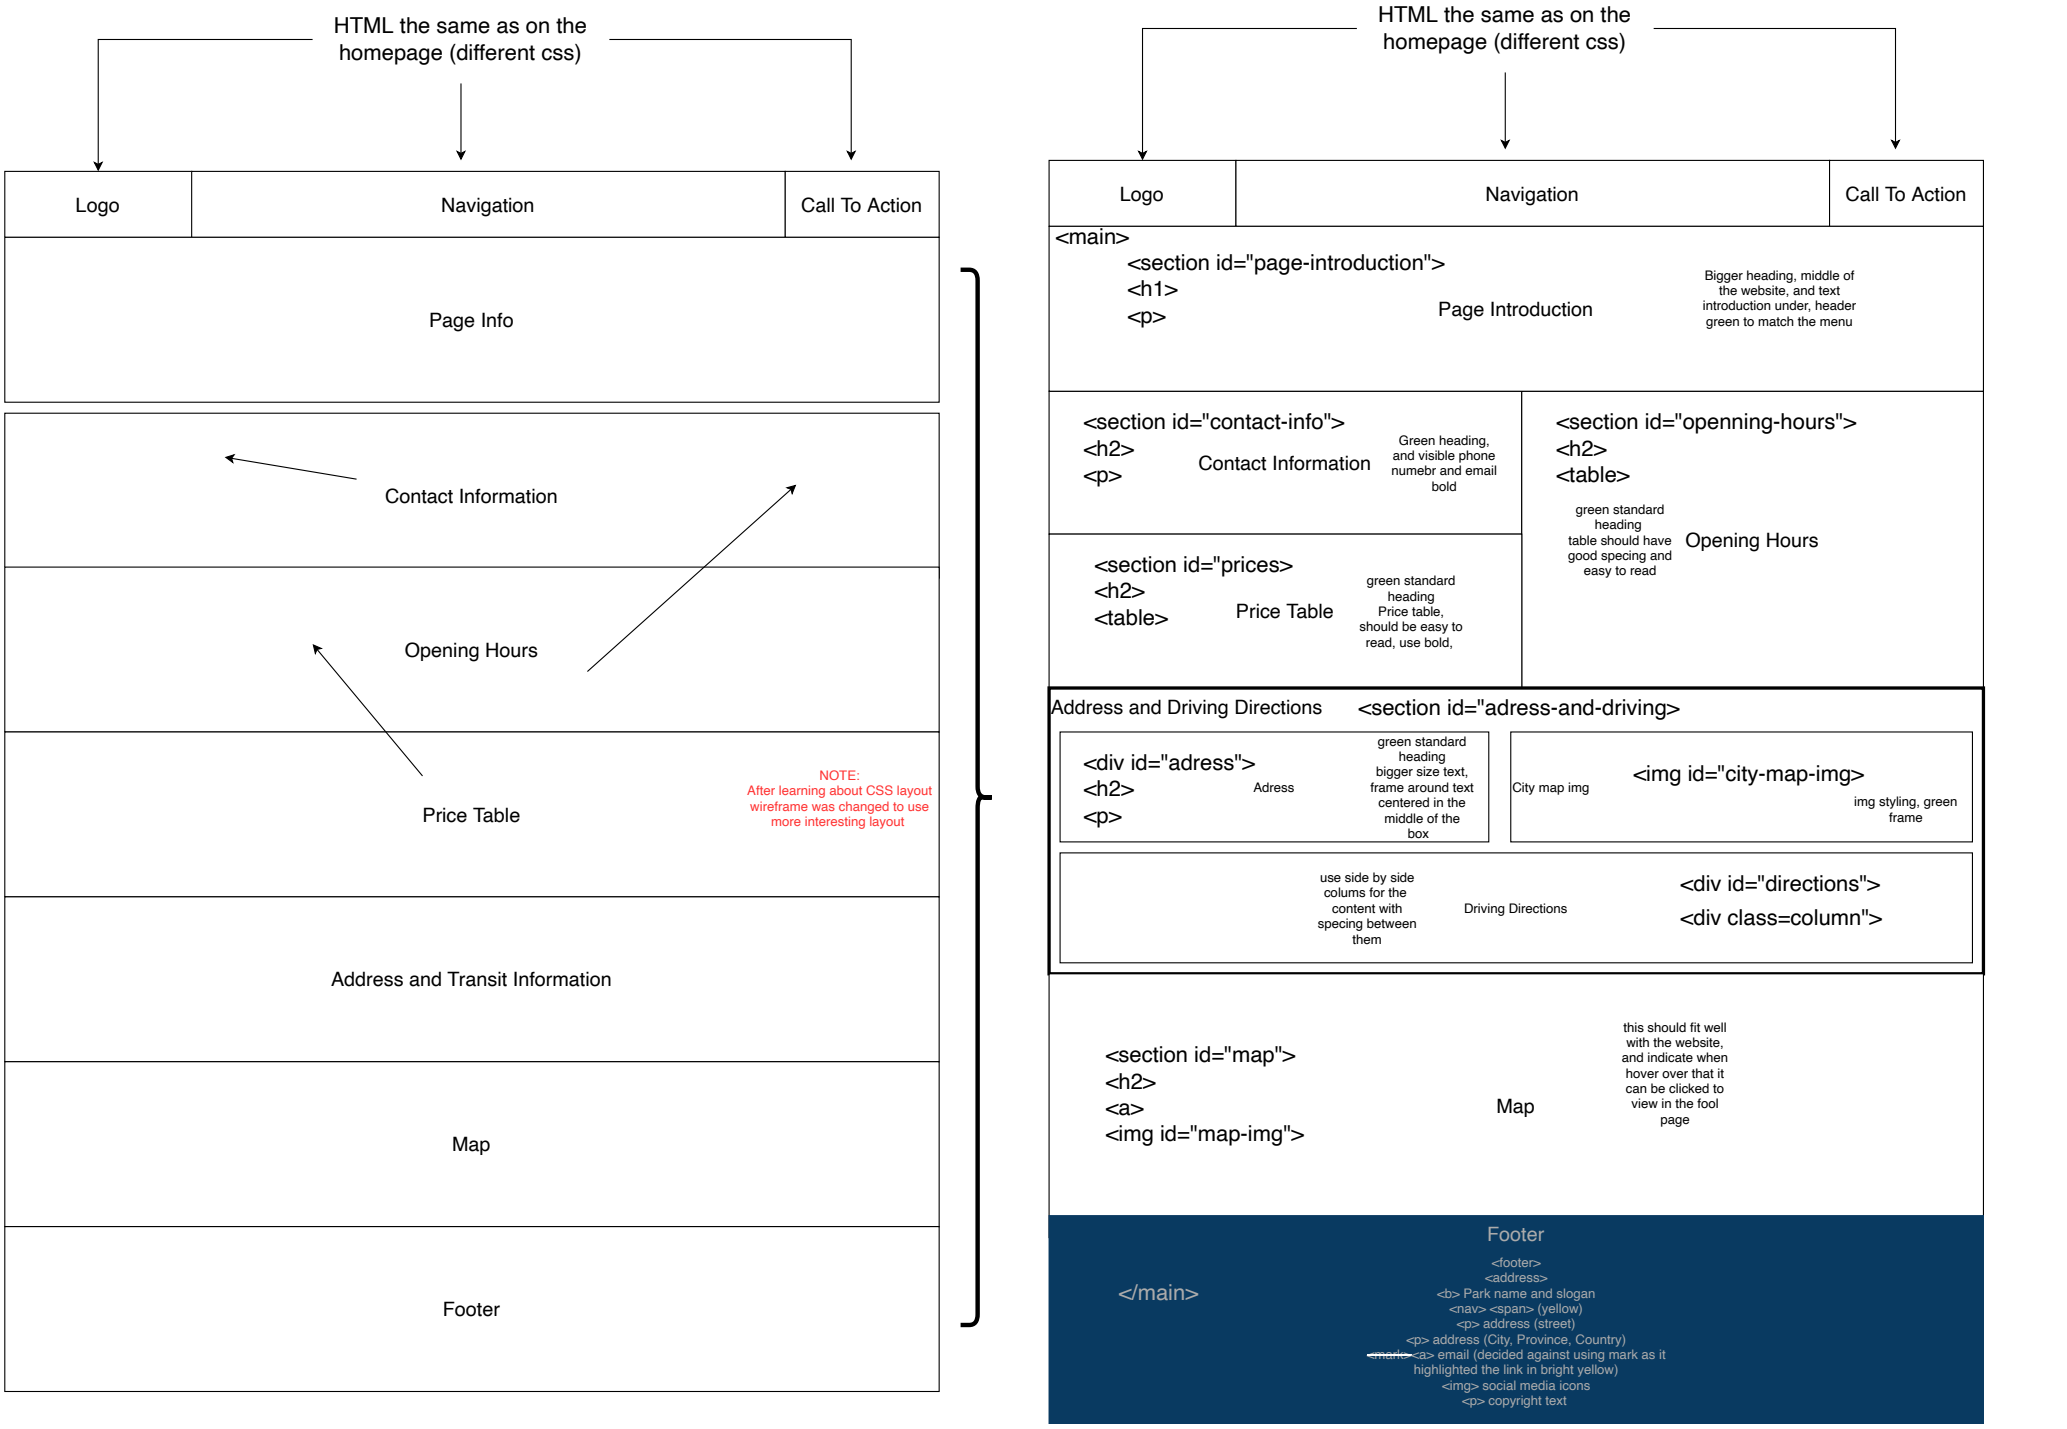

KIDS RIDES

<article>
class = grid_section02_article01
<h2> ride name
<img>
<p> Ride description
 list of ride requirements

<article>
class = grid_section02_article02

<article>
class = grid_section02_article03

ETC ...

HTML the same as on the homepage (different css)
Logo
Navigation
Call To Action
Page Info
Contact Information
Opening Hours
Price Table
NOTE:
After learning about CSS layout wireframe was changed to use more interesting layout
Address and Transit Information
Map
Footer
HTML the same as on the homepage (different css)
Logo
Navigation
Call To Action
<main>
<section id="page-introduction">
<h1>
<p>
Page Introduction
Bigger heading, middle of the website, and text introduction under, header green to match the menu
<section id="contact-info">
<h2>
<p>
Contact Information
Green heading, and visible phone numebr and email bold
<section id="openning-hours">
<h2>
<table>
green standard heading
table should have good specing and easy to read
Opening Hours
<section id="prices>
<h2>
